Marine Discovery Center

'AYANA Cares' is the motto that pulses through the AYANA brand, and the need for us to take more impactful strides towards caring for our planet is more important than ever. AYANA understands that caring for the ocean isn't easy, therefore the resort works with resident marine biologist, Lee Miles.

Lee studies the reef's biodiversity and joins guests on certain excursions, while also educating guests and raising awareness on the importance of protecting the ocean and marine life through regular workshops and presentations.

AYANA guests can make a difference in the preservation of Komodo National Park simply by learning from our resident marine biologist and their team of experts.

Komodo Conservation Fund

Conservation is at the heart of AYANA Komodo, which is why the resort works closely with the local community to support sustainable development, education and environmental protection. For every room enjoyed by guests, AYANA pledges US\$1 to fund the continued protection of Komodo National Park.

Sustainable Sourcing

AYANA's commitment to sustainability begins with our support of the local people by offering comprehensive hospitality training and fair wages resulting in a healthy island economy. We donate to local schools and organize onsite educational visits to create awareness around issues such as plastic and marine pollution. Ocean-to-table is at the heart of our culinary philosophy by sourcing Indonesia's freshest fish and shellfish from local fishers.
